Subject Re: 2009-2010 Legacy Land Application

Molly,

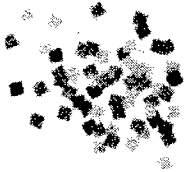

Sorry for the confusion. On pg 11 please disregard the \$250,000 landowner value donation. To clarify Pg 12, we are asking the LLCP for \$500,000. The total match for this will be \$3,524,000, which consists of both Federal and non-federal funds.

Please let me know if there are any other questions.

Thanks,

Sheri S. Mann

Subject 2009-2010 Legacy Land Application

Hi Sheri,

Thank you for the DOFAW application for the Kainalu Forest Watershed project. I have a few questions/comments on the application:

- In the Estimated Acquisition Cost Worksheet (Page 11), the land value donation is included as a cost; however, the estimated value of the property is also listed and included in the Total Anticipated Cost of Acquisition. Is the \$250,000 accounted for twice?
- In the Estimated Matching Funds Worksheet (Page 12), the Legacy Land request is not included in the Total Anticipated Cost of Acquisition.

If you'd like to provide clarification, please reply and I'll forward the info to the Legacy Land Conservation Commission.

Mahaalo,

Molly Schmidt
